### [McHenry: Census Bureau Failures Are Unacceptable](#)

*by Congressman Patrick McHenry (NC-10)*

Congressman Patrick McHenry (NC-10), Ranking Member on the Census Oversight Subcommittee, released the following statement:

The Government Accountability Office (GAO) also reports that failures in the fingerprint training process have led to the hiring of criminals as census takers.

“Republicans and Democrats alike stand ready to provide adequate funding for a successful census. But we cannot allow the Census Bureau to fail in its duty to the American people.”

“While I appreciate Dr. Groves being forthright and understand that these problems are not of his making, the Census Bureau must take immediate action to address these issues.”

“The Census Bureau will soon begin hiring hundreds of thousands of temporary workers and yet its safety and security are in jeopardy.”

“Bureaucratic incompetence that leads to the hiring of criminals as census takers threatens the integrity of the census and the trust of the American people.”
